

SCOTTISH SALMON FISHING SURGERY

CORPORATE POLICY

Scottish Salmon Fishing Surgery is committed to providing all of our guests with the “Ultimate Salmon Fishing Experience”. Excellent customer service and your safety is paramount to all of our staff to ensure that we deliver you a pleasurable and memorable experience, for all of the right reasons. We will strive to tailor that experience to your needs and expectations by communicating with you openly and honestly.

Scotland and its resources are precious to us, and the preservation of the majestic Atlantic salmon and its environment is something that we wholeheartedly support. Catch & Release is a key part of this alongside many of the other programmes being undertaken by responsible private and public organisations throughout the world. We actively support the practice of catch and release in an effort to preserve vital salmon stocks.

We are a socially responsible company regularly involved in charity work & fund raising within the fishing community to support local charities here in Scotland. We are also actively involved in projects that support the education of children and less able people through community based programmes connected to fishing. We strive to highlight the importance of the Atlantic salmon to our economy and communities through our work.
